HIGH PLAINS HAY TERMS

\$1000 per load deposit is required at time of sale.

Deposit will be credited with shipment and payment on a per load basis.

There will be a \$5 charge per ton on No Sales.

Buyer is expected to arrange for hauling/delivery of hay purchased within 30 days of purchase. If hay is not picked up within 30 days, arrangements must be made and approved by both hay sale management and seller. If no such approval is obtained, and hay is not picked up within the required 30 day period, the deposit will be forfeited and hay will be put back on market. If Buyer defaults, he will forfeit his down payment. First time buyers need credit approval prior to bidding. High Plains Hay Exchange and Torrington Livestock Markets expect to receive payment in full for hay sales within 7 days of invoice date. Buyers that are unable to deliver payments within the required 7 day period, may be assessed a late payment fee of 18% on balance.

Seller High Plains Hay Exchange and Torrington Livestock Markets will pay hay sellers in full for hay purchases within 7 days of receiving the scale tickets. Seller shall be responsible to load the same stack as represented on the sale. Hay needs to be in the same condition as represented on the sale contract when loaded on the truck. Seller is responsible for checking for excessive moisture in hay; brown or tobacco color hay from excessive moisture in bale shall not be loaded. If said hay is loaded and sent to Buyer, the Seller will be responsible for all costs of the rejected hay, including freight. Seller is responsible for providing loading onto buyer's truck. Seller is also responsible for arranging and paying for weighing on a certified truck scale. These weigh tickets are the settlement weights that will be used for settlement for both seller and buyer. Buyer is welcome to reweigh hay at destination, but destination weights will have no effect on settlement and should not be forwarded to High Plains Hay Exchange/Torrington Livestock Markets.
